

2016 Hiring Resources

Chester County's On-the-Job Training Program OJT is designed for a company who has identified a job seeker who does not necessarily have all the related training or work experience to qualify for an open position. **Employers** are eligible for a 50% reimbursement of the new worker's salary to offset the training costs, not to exceed \$6,000. The training is provided by the company during a fixed training period between 12 and 16 weeks. The candidate cannot currently be working for the company. Several of our Hire One Company Champions have hired new employees using these funds.
